Thanks Melanie. Please don't rush on this. By the end of the week would be fine. We're just getting a head start on the decision document and need to characterize the comments for the beginning of the document.

Thank you Rachel, this is exactly the summary we were seeking!

The 30 comments that indicated support for the product, were they generally from individuals or a particular type of organization? Also, can you just note whether the comments from Lizzie Initiative, Safety Call International, and AMVA were for or against cancelling the product?

Would you also mind sending us the link to the comments so we can take a peek through others if needed and not bug you further?

Thanks!  
Jackie

Hi Rachel,

In short, we are in the process of drafting a proposed decision for seresto. For documentation and transparency purposes, we are respectfully requesting for a general high level characterization of seresto's petition comments. Some examples: Who and where are the comments coming from? Are they coming from concerned citizens or veterinarians (etc)? Please let us know your thoughts and thank you!
